healthy roses

organic rose management

SILKIES ROSES are grown without the use of harsh chemicals - just as Mother Nature intended - naturally! Our success lies in ensuring the nutrition of our roses is balanced as well as being adequate; we work with Nature and use only organically certified products.

Our aim is to grow plants with high levels of vigour rather than trying to make them grow fast. We use and recommend complete organic fertilizer with added trace elements and humates as this creates the natural balance needed for better colour, length of flowering season and better vase life. To ensure consistent growth, fertilizer is applied year-round at the rate of one-half handful around each rose every 8 weeks.

As part of our ongoing maintenance program, we use regular applications of Eco-Seaweed, Eco-Rose (fungicide) and Eco-Oil (insecticide).

Our recipe is simple, safe and economical:

<p>10 Litre Bucket</p> <p>.....</p> <p>1. 1/4 cup Eco-Rose (dissolved)</p> <p>2. 1 heaped teaspoon of Eco-Seaweed powder</p> <p>3. 1/4 cup Eco-Oil (While filling)</p>	<p>Mix together well and spray over leaves to runoff at least once a month or more frequently at critical periods of the season or if pests or disease occur.</p> <p>We believe that the healthier the rose, the greater its natural resistance to disease/pests and tolerance of environmental stress. A healthy, well-nourished rose will grow well without being pushed;</p>

Welcome

Dear Rose Friends,

How absolutely perfect timing to release this wonderful new catalogue as we celebrate 30 years as "SILKIES ROSES".

To be able to introduce **GRA'S BLUE** on the front cover is an absolute joy, especially since Graham bred the rose and submitted it to the Australian Rose Trial Grounds, Adelaide, where it received a **BRONZE MEDAL** and the **Governor of Gifu (Japan) Award** as the **MOST FRAGRANT ROSE** of the 2015 Trials.

Rose growing has been a most rewarding career for both of us and relocating the rose nursery from KILMORE where we established in 1986, to our home here at CLONBINANE was a challenge!

It's now a huge success which we are both enjoying as we have reduced open times to FRIDAY, SATURDAY, SUNDAY and MONDAY with rose gardeners able to purchase online at www.rosesalesonline.com.au where you will find a huge selection of roses which can be delivered right to your door via Australia Post at ANY time of the year!

If you require assistance selecting roses bring your ideas and plans to the Rose Farm at CLONBINANE or email: info@rosesalesonline.com.au as it is our specialty and commitment to the environment to ensure you grow and enjoy magnificent roses in your garden!
